Summary

Computer Science undergraduate skilled in Data Structures, Algorithms, OOP, DBMS, and Operating Systems. Proficient in Java, Spring Boot, REST APIs, JDBC, and SQL with experience building backend and full-stack applications. Solved 500+ LeetCode problems, demonstrating strong problem-solving abilities.

Projects

🔗 Fact & QR API

— *Spring Boot, REST API, AWS*

Built a scalable RESTful backend using Spring Boot with API endpoints, service-layer architecture, JSON processing, and AWS deployment.

🔗 Online Voting System

— *MERN Stack, TypeScript*

Developed a full-stack application with authentication, role-based access control, candidate management, and real-time vote handling.

🔗 Gym Management Website

— *Java Servlet, JDBC, MySQL*

Created a Java web application with JDBC database integration, authentication, and CRUD operations.

Skills

- **Computer Science:** Data Structures & Algorithms, OOP, Database Management
- **Programming Languages:** Java, C++, Python (Basic), JavaScript
- **Software Skills:** Debugging, API Development
- **Backend Development:** Spring Boot, RESTful APIs, JDBC
- **Frontend:** HTML, CSS, JavaScript, TypeScript
- **Databases:** MySQL, PostgreSQL, Database Design
- **Cloud & Tools:** AWS, Git, GitHub, Postman

Education

Nandha Engineering College

2023 – 2027

B.E. Computer Science and Engineering

Erode, Tamil Nadu

CGPA: **8.3**

Government Higher Secondary School

Percentage: **80%**

Avalpoondurai, Erode, Tamil Nadu

Internship / Training

Full Stack Web Development Training

Jun 2025 – Jul 2025

W3 App Developers

Gained hands-on experience in frontend and backend development, working on real-world projects.

Certifications

- NPTEL Certification in Cloud Computing

Achievements

- Shortlisted for an **Infynd internship assessment** after successfully completing a 36-hour national-level hackathon.
